Notes for the other information required to accompany this application

(1) A person desiring a boiler to be erected or used, shall make application in the approved Form to a factories Inspector for his permission.

(2) New Boiler.

In the case of a new boiler to be erected or used the application shall be accompanied by:-

(a) A fee of E10.00

(b) The complete specification of the maker.

Including the Approved Code in accordance with which the boiler was made.

(c) a legible dimensioned drawing setting out the complete boiler and -

(i) Details of the plating, rivetting, and welding, and

(ii) Both the strength of the materials and the design stresses, and -

(d) The maker's test certificate of all pressure parts and an inspection certificate issued by an Approved Inspection authority.

(3) Used Boiler.

In the case of a used boiler to be erected or further used, the application shall, in addition to the requirements of paragraph (2) - be accompanied by full records of the previous history of the boiler.

The Official DIMENSIONS AND DATA sheet for boiler pressure parts shall also accompany this application.
