Dear Sir,

RE: PROJECT CATEGORIZATION FOR THE UPDATE OF FEASIBILITY STUDY & DETAILED DESIGN FOR THE SIPHOFANENI-SITHOBELA-MALOMA NSOKO (MR14) AND MALOMA-SIPHAMBANWENI (MR21) ROADS

We acknowledge receipt of your project brief for the above mentioned project.

In line with the provisions of the Environment, Assessment Regulations, 2022, the project is assigned a **category three (3)** classification.

The environmental assessment report should include the two integrated roads of the project (MR14 & MR21); the common environmental aspects on both sites (roads) and the site specific environmental aspects for each; any land use change and land displacement that may result from the implementation of the project. You may present the report as volume 1 (MR14) and Volume 2 (MR21) in order that the environmental aspects of each road are clearly articulated and presented.

The environmental assessment process and procedure should be observed and implementation of the project shall commence upon successful completion of the process and fulfillment of all relevant requirements.

We anticipate your cooperation in this regard.

Yours sincerely

ISAAC G. DLADLA

Dear Sir

RE: UPDATE OF FEASIBILITY STUDY & DETAILED DESIGNS FOR SIPHOFANENI-SITHOBELA-MALOMA-NSOKO (MR14) AND MALOMA-SIPHAMBANWENI (MR21) ROADS

The above subject matter refers.

In accordance with provisions of the Environment Assessment Regulations, 2022, this project has been assigned Category 3. Projects under this category are charged an assessment review fee at a rate of 0.003 of the development costs.

You are required to submit the Bill of Quantities (BOQ) before submission of the ESIA/CMP for proper calculation of the assessment review fee.

Yours Faithfully,

THABISO NZUZA
CHIEF FINANCIAL OFFICER
